The Standard AND RIVER PLATE NEWS.

No. 1836—SEVENTH YEAR. BUENOS AYRES, SATURDAY, MARCH 14, 1868. CIRCULATION 2500

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

Jorge Drabble,
Manuel S. de Zumaran.

MANAGER—Sr. D. FRANCISCO F. MORENO.
Inspector-General—Dr. Guillermo Schindler.

Co.'s Office, 118 Calle Piedad, altos.

The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses OCCASIONED BY FIRE which may be suffered by insured parties.

The Insurance may be effected for periods ranging from one month to ten years. The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. In terms of from 5 to 10 years, payment in advance of 5 years premium, entitles the Insured to the reimbursement of one year's premium: or in other words the Company will only charge the premium corresponding to four years.

Payment in advance of ten year's premium entitles the Insured to the reimbursement of two year's premium; with a further abatement of 10 p. cent: on the premium corresponding to the term of eight years: that is he will only be charged with the amount of eight year's premiums—less 10 p. cent.

The Company furnishes guarantees of the highest character, from the fact of there being no other Fire Insurance Company, at a fixed premium, having its head residence in the Argentine Republic; and also from the circumstance of its large capital.

The Company's funds are deposited in the Provincial Bank.

Further particulars will be furnished on application at the Company's Offices. 93 xp n10

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—
1st. Security
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

"THE QUEEN" FIRE AND LIFE INSURANCE COMPANY.

CAPITAL, £2,000,000.

INCOME, £160,000.

LIVERPOOL AND LONDON.

Insurances against loss or damage by fire may be effected with this Company on Dwelling Houses, Warehouses, Buildings, Merchandize and Goods in the Custom-house, Bonded Stores, and private ones, Produce in the Barracas or in Deposit Stores, in the Lighters or on Board; and on nearly every description of property.

Rates of premium vary according to the nature of the risks, and will be found as moderate as those of other first-class offices.

Losses by Explosion of Gas paid for. Losses by fire arising from lightning made good.

The advantages obtained by those who assure with the "Queen" are fully mentioned in the prospectuses. Life Policies are indisputable; advances to policy holders, &c. The "Queen" enjoys to so great an extent the confidence and support of the public in England that the Post-master-General has selected it, for the insurance of the lives of the clerks and other officials.

The undersigned General Agent of the Queen Fire and Life Insurance Company is duly authorized by power of attorney to issue policies and to settle and pay losses in Buenos Ayres with promptitude and liberality, without reference to the chief office in England.

Official registration has been entered in the Registro Publico, in accordance with the existing laws of this Republic.

xp.d7 THE ADMINISTRATION

From Sunday, 15th September, inclusive, the following alterations will be made in the Traffic: One third of the First Class Saloons will be converted into smoking apartments, with communication with the other part of the saloons. The cars hitherto used as Smoking Saloons will be used entirely for second class passengers. First class passengers will pay, as at present, five dollars, children from 3 to 10 years, three dollars; second class, three dollars, children two dollars. Return tickets, good for the day, will be given—first class eight dollars, children five dollars; second class five dollars, children three; also monthly tickets of first class for two hundred dollars.

Flag stations at Casa Amarilla and Barraca de Peña. Passengers wishing to alight there will give previous notice to the guard.

HARRY SIMPSON, Manager.

Boca, Barracas, and Ensenada Railway,
Between Venezuela and Tres Esquinas.

From and after Sunday, September 15, inclusive, the Trains will run as follows:—

TO SHEEPFARMERS AND THE PUBLIC IN GENERAL.

Will be Opened, on or about the 9th March, the Lumber Yard and Steam Sawing Mills, corner of Lima and Comercio, with a Large Assortment of Pine Lumber, Listones para Corrales, Mandubay Posts, Hard Wood of all Kinds; also, a General Assortment of Paints, Oil, Cordage, Wheat Sacks, Canvass, Twine, and other Articles requisite for the Camp.

As the above are almost entirely received direct from the source of production, the prices will be most moderate, and the utmost attention and expedition in execution of orders is offered to those who may favor us with their commands.

CORRALON DEL AGUILA,
CORNER OF LIMA AND COMERCIO.
70,1m m10 F. FAGLIABUE & CO.

GREAT SOUTHERN RAILWAY NOTICE.

On the 17th March, and in future, only on the 2nd and 17th of every month, Accounts against the Great Southern Railway Company will be paid at the Plaza Constitucion Station, except in the case of the pay-day falling on a Sunday or Holiday, when the Payments will be made on the day before. No accounts will be paid which have not been sent in at least three days before the pay-day.

62,1m,m8 THE ADMINISTRATION.

GENERAL POST-OFFICE.

FROM THE 10th MARCH, a new Bureau will be opened to the Public at the Central Office, for the Delivery of List Correspondence and Registered Letters from Europe. The new Office will be situate in the apartment heretofore occupied by the Postmaster-General's Office, which will in consequence be transferred to the second yard of the Department.

F. P. HANSEN, Sec.

Buenos Ayres, March 7, 1868.

NOTICE is hereby given to the Commercial Public that Mr. Robert Dowdall, holding my Power of Attorney, and with my full authority, has liquidated the business hitherto carried on under the firm of Viuda Latham.

J. D. DE LATHAM.

REFERRING to the above advertisement, we hereby give notice that we have this day established a house, under the title of Robert Dowdall & Co., to carry on business in this city, in the same branch as the above-named firm now liquidated.

CICERO

SATURDAY, MARCH 14, 1868.

WATER SUPPLY.

Again, we have to thank the Provincial Government for a step in advance. Whilst the press has been clamoring for Municipal action in carrying out this much-needed public improvement, it turns out that for some months back the most active measures have been in progress for its realisation, and that, thanks to the energy and spirit of the young men of the new school, who now rule the destinies of Buenos Ayres, we shall, before the end of the year, have an abundant supply of pure filtered water, so spread over the town that no house shall be further distant than four squares from a public stand-pipe. The distribution which the Government has ordered Messrs. Castro and Coghlan to carry into immediate effect, and for which all the preliminary steps, including the ordering of the machinery, pipes, &c., have been taken, extends to all the plazas, including the Once Setiembre and the Southern market, all the hospitals, markets, and public buildings, and the new corrales, with stand-pipes for delivering water at every fourth Boca-Calle, in the Calles Libertad, Lima, Rivadavia, Florida, Bolivar (selected, no doubt, as passing by the 'Standard' office), and Santa Fé, between Libertad and the Retiro. In the description of the works published in the 'Tribuna', and the specifications printed for distribution to contending contractors, will be found the details of the project. We learn from them that after a careful study of the ground and various analysis of water, it has been decided that the supply shall be taken from the river, at a distance of 600 metres from the shore, at a point opposite to Mr. Hale's quinta, beyond the Recoleta.

The water will be allowed to rest for some days in settling reservoirs, from which it will pass through capacious filters, formed of sand, gravel, and stone, to the steam pumps, which force it into the town for delivery at the points above mentioned. To secure a supply at such times as the pumps are not at work, a large reservoir, in connexion with the main pipes, to be kept constantly filled, is to be placed on a tower 64 feet high, to be built on an elevated point in the centre of the city. The amount of water to be supplied is one and a-quarter millions of English gallons daily, a quantity likely to be sufficient for the wants of the town for some years to come; the works are, however, to be of sufficient capacity to supply double that quantity on an emergency; and the Commissioners in their report inform us that in order to carry out that amount of supply (two and a-half million gallons, or over twenty thousand pipes, in twenty-four hours) on a proper scale with the necessary reserves for accidents, cleaning, &c., it will only be necessary to add a third engine to the two now about to be erected, with a corresponding extension of the reservoirs and filters (all works of easy execution) and that any further increase, not likely to be needed for many years, can be based on and include the present work.

Our readers will, no doubt, be astonished, as we were, at finding that this work is already in hand, that the plans and specifications are printed and tenders for the construction—to be received until the 27th—are advertised for in the daily papers, and that the Commissioners expect to receive by the English packet now due, letters from their agent, who took home their orders for machinery and pipes at the end of December last, advising them of the contracts for their delivery. We are informed that he has instructions to send out at the same time a quantity of service pipes, so that the householders along the streets, through which the pipes will run, can at once lay on the water to their houses; and before the end of the year we hope to be able to present the sparkling liquid within our editorial precincts, to our visitors for consumption, either neat or flavored by the gentle stimulants contributed by our kind friends, the advertising importers.

Thus, the great water question is solved, and we must say in a most practical and simple manner. Not the slightest difficulty will be found in extending the branch pipes with the different streets as they are called for; indeed, as soon as the actual facts are thoroughly realised, we have no doubt that many applications will be made to Government for an immediate provision of this great desideratum.

The principle of the execution of such a work by an enlightened and public spirited body, such as our present Provincial Government, presents many advantages, which have led to its adoption in almost all modern instances. The disposition of this very scheme shows that the first desire is for the supplying of the poor and of the sick, and that the reaping a large profit—of course the first necessity of a public company—is entirely postponed to this object.

We congratulate the Government on this new achievement, supplying one of our greatest wants in a manner business-like and sensible, without fuss or bustle. Such a useful system of administration, worthy of the men who fixed the value of the paper currency, inspires us with full confidence in their successfully dealing with the other great problems—house drainage, street and road making, harbour improvements, saladero cleansing, &c., &c., which still remain to be solved.

THE ARNO'S MAILS ANTICIPATED

The Brazilian transport San José arrived in Montevideo on Thursday, and brings the following summary of European news, which reached Rio by the Royal mail steamer Oneida. Her dates are from London to the 10th, Paris 11th, and Lisbon 14th of February.

ENGLAND.

There have been some new Fenian attempts of no moment.

Tremendous storms and many shipwrecks have occurred on the coast of England, as well as great floods in Wales and in Yorkshire, with loss of human life and of whole flocks of sheep that have been drowned.

A paper containing a vote of censure on the Fenian proceedings, and protesting loyal adhesion has been signed by a large number of Irishmen and presented to the Queen.

The Cabinet is disposed to make concessions to Ireland by introducing reforms in the relations between landlords and tenants, which are the principal causes of emigration, and exonerating the country from the expenses of the Anglican Church, the two principal grounds of complaint of Irishmen against the English Government.

Nothing further of importance is known with regard to the Abyssinian expedition: no engagement has as yet taken place.

A carriage road has been opened as far as Senafé, and 114 bullock carts with provisions had been despatched by it.

The English are on good terms with Prince Zapon, but it is not known whether he is independent or a vassal of Theodore.

Another Prince, Kapa, is equally on good terms with them. He has lately sent an embassy to Cairo to treat with the patriarch about the succession of the Archbishop of Abysinnia who died lately.

The "Morning Post" says that, notwithstanding every effort of the Abyssinian expedition, a year must elapse before anything is obtained.

It is said that the Queen has failed in bringing about the intended marriage between Prince de Hohenzollern with a Princess of the Orleans family.

A telegram from Cork, dated 11th February, says—"There is great agitation, and several attempts at assassination have been made against the police.

FRANCE.

France, which viewed with annoyance the re establishment of Prussia, seems now resigned to the events it could not prevent.

The new Army Bill lately promulgated, places France in an armed position, which dispels any apprehension in case of an European war.

On the other hand, Prussia, with regard to its neighboring Powers, and Russia, with regard to the Eastern question, insist in protesting their pacific intentions.

At a partial election that lately took place in the Departement du Nord, the official candidate obtained 21,000 votes against 8,000 obtained by his adversary. But what was remarkable was that the opposition candidate did not get one single vote in the rural districts, and in the town of Lille alone he had a majority of 2,000.

A Paris telegram of the 11th says—In the Legislative Chamber the amendment imposing prescription for offences of the press was thrown out, and another was passed establishing imprisonment for defamation.

ITALY.

A Florence correspondent of the *Liberté*, an enemy of Ratazzi and Menabrea, in a letter addressed to that paper, states that during Ratazzi's administration, the idea was mooted of sending an expedition to the River Plate somewhat in the same style as the French expedition to Mexico. This French correspondent says that the Baron Jecker, belonging to Montevideo, is creditor of a large sum which he despairs of obtaining without an Italian intervention. He persuaded Campello, a colleague of Ratazzi's, that the conquest would be an easy matter, since the majority of the inhabitants are Italians—50,000.

The Cabinet, according to the same authority, studied the question and made calculations as to the amount of naval force required for this expedition. He adds, moreover, that the present Minister, Menabrea, has not abandoned this senseless project, and that it is rumoured that a fleet which sailed from Naples is destined for the River Plate.

No other newspaper makes any allusion to this matter.

The marriage of Prince Humbert, the heir of the Italian crown, with his cousin, Princess Margaret, daughter of the late Duke of Genoa, brother of Charles Albert, has been finally arranged.

In Rome the fortifications of the Aventine, Janiculus, the Castle of St. Angelo, and the gardens of the Vatican are being carried on. A few of the French expeditionary forces had left for their country.

A Paris telegram of the 12th says:—"*La France* states that serious difficulties have arisen on the version of the concordat between Austria and Rome."

PRUSSIA.

The policy of this country tends more than ever to peace. In the Eastern question it appears it will be on the same side with England, France and Austria.

An Austrian plenipotentiary had arrived in Berlin to renew the negotiations for a treaty of commerce. Bavaria and Saxony had been invited by Prussia to take part in this treaty.

SPAIN.

The speech of Narvaez in Congress in which he declared having separated from the absolutist party, has created great sensation. In it he declared that if he had used exceptional measures it had been to suppress the revolt, but that he was ever ready to defend the constitutional and parliamentary institutions. He repelled the epithets which had been applied to his Government of being reactionary and retrograde, and then published a general amnesty for political offences. He subsequently laid before the Chambers the budget in which the income is set down at 2,580 millions, and the expenses at 2,670, leaving a deficit of ninety millions. A credit of 140 millons is asked to defray the expenses of the Pacific fleet.

The rumour of an alliance, offensive and defensive, between France and Spain, is completely unfounded.

D. Juan de Borbon, son of Don Carlos, is going to marry the Princess of Modena,

EASTERN QUESTION.

A Paris telegram of the 11th says:—"With reference to Russian intrigues in Servia, the *France* states that England, France and Austria are ready to make head against all eventualities."

ITALIAN EXPEDITION TO THE RIVER PLATE.

The *Jornal do Comercio* of Lisbon says:—

"The Italian newspapers show themselves preoccupied with reference to the despatch of an Italian fleet to the waters of the River Plate. It is known with certainty that this expedition is for the purpose of exacting indemnification due to Italians for damages suffered during late wars. It is stated that the Italian Government relies upon the neutrality of Brazil. The opposition papers, however, assert that the Italian fleet goes to the River Plate to support a pronunciamento in favour of Italy in which Montevideo will take the lead."

EDITOR'S TABLE.

The Arno reached Rio de Janeiro on the 5th inst., and was to leave again on the 9th, so that it is not likely she will be here before to-morrow. She brings several passengers, a list of whom will be found elsewhere. Her news from Europe has been anticipated by a Brazilian transport that reached Montevideo on Thursday. They do not, however, contain any thing of great importance, save the rumored Italian naval expedition to the River Plate, of which we must hear further before giving credit to the report.

The Villa del Salto leaves for Montevideo this afternoon, and will take the supplementary mail for the Aunis, which is made up at 2 p.m., at the French Consulate.

By the Lujan we received yesterday from Rosario the 'Ferro Carril' of the previous day, in which we find published a very stiff and plain-spoken note, addressed by Governor Aldao to the National Commissioner, refusing point-blank to comply with the decree by which Minister Costa had convened the people for the election of Governor, on the 22d of this month. We publish elsewhere a translation of this notable document which, no doubt, gives to the question between the Governor and the Commissioner a serious and alarming turn.

From the interior provinces the only piece of news is that the Montonera of the Llanos, in conjunction with some deserters of the Tucuman battalion, quartered in the Morro, had attacked a small provincial town of the province of San Luis, called San Francisco, but they were completely dispersed, leaving behind a considerable number of their companions dead.

Under the heading of "A Merchant Steamer passing Humaita," the 'Tribuna' informs us that the steamer Paysandu is purchased by a company to pass Humaita as far as Tayi, with the second part of the first grand naval division. The steamer is to carry a cargo of 500 tons of coal to Tayi. The coal is to cost $200f. per ton, amounting to the trifle of $100,000. The steamer will be so heavily laden that she will be sunk nearly to her gunwale; and her bulwarks and hull will be further protected by bales of wool stored outside. The vessel will also be insured by the company, which is composed of Messrs Leopold Arteaga, Guillermo Matti, Candido, Galvan, and others, with a capital of $f. 100,000 the sum for which the steamer is insured. The engineer on board will be Mr. Shaw. Once the steamer is at Tayi, the profits she will realise are beyond calculation, as she will be the first merchant vessel to arrive at Asuncion, and being there it is very easy to conceive she will be the first to bring the cargoes of produce that must infallibly exist, and more particularly yerba and hides, as those are the articles which most abound. Our contemporary is perhaps mistaken as regard to the abundance either of hides of yerba. From information we had some time ago there are few hides and there will be no yerba for six months after the conclusion of the war.

The *Nacion* of yesterday contained the following queer announcement in regard to the gas company. Our colleague says:—When the directors of the gas company wished to raise the rates and to obtain from the municipality other concessions, they proposed to receive the contract by which they had the priviledge of exemption from customs duties on the materials imported. The contract was therefore rescinded, but the Provincial Government did not communicate this to the previous Minister of Finance, nor to the Customs authorities who where officially ignorant of the annulling of the contract. In the meantime the President of the Directory, Señor Estrada, has been for the last four years, as we are informed, passing free of duty all the articles used by the company in the manufacture and consumption of gas, and particularly coal. The consequence is, that at the present date, the gas company are indebted to the custom-house about *three million dollars*, for duties unrecovered."

Dr. Rawson, who for several years occupied so worthily the post of Prime Minister to President Mitre, has acceded to the instances of Minister Avellaneda and the Rector of the University, and consented to fill the chair of Professor of Constitutional Right in the Buenos Ayres University.

The Municipality has agreed to have the Cathedral Church newly carpeted, and to have the whole of the exterior repaired and whitewashed before the May feasts.

We have seen a letter from Rio Janeiro, dated 5th inst., giving a glowing account of the wild excitement among the Brazilians on the news of the passage of Humaita by the ironclads. They think it is beyond doubt the greatest naval combat ever recorded in ancient or modern times, and that Salamis, Actium, Aboukir, Trafalgar, and Navarino were mere child's play compared to it. The Emperor has been profuse in giving decorations and titles—amongst the most notable of which is the one creating Commander Delfino a B(ird) of Passage.

A lithograph drawing, representing the assassination of Gen. Flores, in Calle Piedad, attracts every day a larger number of gazers—but we wonder Buenos Ayres cannot produce something better.

We publish a letter to-day from our correspondent "Vigas," defending the management of the Northern Railway. In so far as we were misinformed as to the circumstances connected with the accident on Sunday last, we are glad to be corrected, and indeed we made the correction ourselves before "Vigas" took the trouble to write. For the rest, we can assure him that the exasperation which, even as late as yesterday, has been given vent to in our office, by the persons inconvenienced by the stoppage of the traffic, would justify us in making much stronger remarks than any we have passed. We should recommend the managers to send us a statement of the case, if they think public opinion is of any consequence.

A camp subscriber of ours while lamenting the bad times for farmers, informs us in the same breath of his wife having increased an already numerous family of 11 sons and one daughter by giving birth, on the 6th inst., to two sons and one daughter. Well may he complain. But, query—Must he not take on himself a good share of the blame?

The proprietors of the newly started evening resort in Calle Cuyo yclept Folies Concerts, which was inaugurated on Thursday, must have experienced something akin to the feelings of the thirsty traveller in the desert surrounded by the mirage of distant but unapproachable water. The place was filled to such an excess that an eager crowd that could not obtain admittance obstructed the street pavement outside, and could only be restrained by vigilantes who were placed sentinels at the door, but this very agglomeration produced such a jam that all motion was rendered impossible, and all hopes of being served were out of the question; consequently the proprietors had to be satisfied with the prospective profits the great success of their undertaking is likely to leave when they can succeed in enlarging their premises.

We are informed that Count Joannini, Italian Charge d'Affaires, is shortly about to leave the River Plate, having been promoted, and while regretting the departure of this talented diplomatist, we venture to express our best wishes for his future success. It is not known yet positively who is to be his successor.

LATEST FROM MONTEVIDEO.

March 12th.

Don Pedro Varela, manager of the Montevidean Bank, has issued the following notice to the public, under date 11th inst.

"Unfounded rumours, whose evil origin is well known, have induced various holders of the notes of the bank I have the honor to direct, to doubt its stability, and lend themselves to usurious transactions, prejudicial to its interests, and allow themselves to be possessed by a panic which was purposely instigated and calculated upon. With the sole object of putting a stop to such iniquitous machinations, I announce that the Montevidean bank is preparing, and counts upon the certainty of being able to resume specie payments on June 1st. The brilliant state of its affairs affords the most complete guarantee to all who having faith in it are holders of its notes, and to all others who may be creditors of the establishment."

A Montevideo newspaper favorable to that bank gives the following statement of its affairs:—"The amount of gold in the bank, according to the last balance, was 575,069$19 cts.; in bills drawn on Brazilian treasury, payable in gold before the first of June, 172,800$. Internal debt, 350,000$. 'Titulos de rescate,' 130,000$. Cash reserve of bank shares, 63,000$. Dividends on same shares, 500,000$. With these sums alone the bank can pay its liabilities, leaving a surplus in hand. The various securities in possession of the bank are of the best description and easily convertible; and moreover, the assets are in excess of its liabilities even calculating a loss in the recovery of the former."

The extraordinary, not to say suspicious mystery which still hangs over the perpetrators of General Flores' assassination, is likely to continue still longer, owing to the fact that Andres Baraldo, complicated in the crime, and one of the few who could throw light on the transaction, has just been killed in prison. It is said, he was shot whilst endeavouring to escape.

The gunpowder plot of a few months since, is now nearly forgotten in the final catastrophe which overtook the intended victim. But the public prosecutor has revived the subject by publishing a lengthy report. The criminals, the brothers Neumayer, are condemned to death, their bodies to be hanged after the execution.

The new President and his Ministry are entering the many difficulties the present administration will have to face, with universal sympathy and support. Questions of high politics, and particularly of foreign affairs, will be arranged by circumstances and by time; but the most pressing question is that of finance. The Government is without resources, and it will have to reform many abuses in the incidence and collection of taxes.

The following changes have been made in the appointments of Gefes politicos. Caneloes—Don Feliciano Vidal, in place of D. Adolfo Olivera, resigned. Paysandu—Don Manuel Pacheco y Obes, in place of D. José Mundele, resigned. Salto—Colonel D. José Antonio Reyes, to fill the appointment vacant.

The loss of the Havre packet-Chincha which was contradicted is again confirmed.

We regret to hear that certain chiefs and officials of the Colorado party are not acting up to the promises and credit of the new Government, in regard to the tolerance granted to the vanquished party. Some of the savage rumours we can however trace to facts given a week ago in this paper, and relating to outrages committed by Colonel Maximo Perez in Mercedes. This Chief is Florista, and it appears doubtful if his victims were not rather "conservadores" than Blancos. It is even talked of the Government dispatching General Caraballo to Mercedes to hold that officer in check. The cause of the weakness of the Government in the prosecution of the assassins of Flores, and the mystery as to the real criminals, and to the party on political section to which they belong are matters to be cleared up.

BUENOS AYRES BRITISH CLERKS PROVIDENT ASSOCIATION.

In view of the small attendance at the general meeting held on the 9th inst., in consequence of the rainy night, it was resolved to publish the following report, laid before the meeting on that evening:—

REPORT.

For the half-year ending February 29, 1868, being the half-yearly meeting of the seventh year of the association.

On the close of the half-year your committee have once more the opportunity to lay before you a statement of the position of the society and of the administration during the past six months.

During the past term they are glad to be able to show, by the following accounts, that, in spite of the general apathy, your association has not retrograded, and if it has not materially advanced, it has, at least, not lost ground.

The following is a copy of the balance sheet, at the date of February 29, 1868:—

Debit—	fts.		mjo.	
Cash acct. ..	41	46	43,230	
Bills receble. account ..			124,113	
Bank acct. ..	5222	„		f.5263 46 167343
Credit—				
Share acct. ..	5263	45	163,613	
Interest acct. ..			3,730	f.5263 45 167343

In explanation of these figures, your committee would offer the following remarks:—

Cash Account.—The balance to debit of this account represents the cash held in hand, by the measures at that date, and which had been retained to meet the advices for calls—viz., three members retiring, and two members requiring partial withdrawal, under "Loan Account." These amounts have since been paid off, in the March cash account.

Bills Receivable and Bank Account.—Show the amount of the Society's funds at present invested.

Members' Loan Account.—As usual, has been written off to the share account: there have, however, been few calls on this account.

Share Account.—The balance to credit of this account, represents the total capital held by the members at the close of the half-year, after having allotted the half-yearly dividend.

Interest Account.—This balance carried down (after having debited the account with the dividend), represents interests collected and yet to be earned on bills taken up and not yet due.

Dividend Account.—The dividend for the past six months has been allotted to the full amount of that earned, which gives a per centage of (5½) five and a-half on specie, and (7½) seven and a-half on currency, per annum, for the six months. Compared with the present ruling rates for money in the market, this per centage will appear low; it must, however, be borne in mind that your Committee have had to work against,—

First, The different dates at which the small monthly calls fall due, as also the case with many of the small auctioneer pagares; necessitating the holding of balances in hand to accumulate for a new investment.

Secondly, That the rates of interest, for the first three months of the past half, ruled low, compared with the present ones.

Thirdly, That your Committee have ever considered, that the real object of the Association was to foster a spirit of saving, rather than to look on it as a business transaction, for the sake of the dividend; and they have, therefore, always looked more to the point of security, rather than accept higher rates with any risks.

Members.—The number standing on the books at the date of the half-year is 29, holding 218 shares, for the value shown above in the share account from this must be deducted four members who have given notice of withdrawal; but, on the other hand, the Committee can advise that several other members have been enrolled since the date of this Report. Compared with the Report presented at the last and previous meetings, the number of members shows a slight diminution; and taking advantage of the publicity which will be given to this Report, your Committee would avail themselves of it, to invite fresh members to join, and to ask the present ones to use their endeavors to this end, as they are convinced, from their experience during their management, that much good has been, and can be, effected by the Association, more especially towards that class of your members, whose means are more limited, and to whom they would again point out that a very small, regular, monthly payment, soon accumulates to a considerable amount for an available emergency.

Your Committee, in conclusion, have again occasion to call for a vote of thanks to the Library Committee, for the use of the rooms, and to Mr. Duffy for his attention during the meetings.

DR. LOPEZ'S PAMPHLET.

To the Editors of the *Standard*.

Gentlemen.

Guided by the interest which you have always evinced for the moral and material progress of my country, whilst as a general rule the native newspapers are occupied in painting themselves in black and white, you have reviewed my last pamphlet, "Defence of the Government of Santa Fe, in the question with the Bishop of Parana upon civil marriage." In this review you notice the general features of the work, in which I have traced the history of civil marriage from the earliest periods of Greece and Rome, whose ideas and customs have continued to rule the world until the present day, although a little changed by the stamp of new ages and generations, through the course of which may be always traced the primitive type of a race and of an idea. To study the historical, philosophical, and juridical truth I examined the fountains, comparing the code of civil laws and the customs of nations, who thought and legislated then as now, guided by the same spirit and by the same sentiments; showing that in this point of general harmony (the necessary result of a law of the moral world) ought to exist the truth.

This historical and juridical study tends to strengthen our ideas upon the nature of the civil-religious duality of marriage; because the legislator at the same time that he legislates for the temporal interest of the civil contract, respects the principles and dogma of the religious sentiment as I have already demonstrated in my book "Civil Marriage: the Church and the State in the Argentine Republic." As the author of this reform, initiated not with the fanaticism of the early reformers, but with the tranquil reflections of study, and bearing in view the knowledge of the duties of conscience, imposed upon me at commencing a reform so transcendental, I have carried it out designing the orbit of its movement that there might be produced a benefit to religion and to the State, by drawing into narrower bonds their harmony and compactness. My historical citations, proving that the contract of the marriage always preceded the religious benediction—because there being no contract there is nothing to bless, as has occurred until the present day—tend to demonstrate that there is no danger in this form; which having its origin in the instinct of the human heart, proves by the testimony of every age that the human race is irresistibly impelled to seek in the religious benediction the consecration of a bond which ought to sanctify both life and family, and consequently we recognise the necessity as well as the convenience that this should be the case. My erudition is far from tending to induce the contrary in those whose religious belief is influenced more by their pastors than by what the Greeks and Romans practised, as you quietly hint is my intention. This erroneous idea of the spirit of my treatise compels me to beg of you the favor of a rectification.

You also say that I expressed a desire that Sor. Trelles would disinter the document published by the Council of Trent. The document to which I refer is simply the promulgation or publication of the Council of Trent in this country, as was ordered to be done in every Catholic country.

With the good sense which so preeminently distinguishes your writings, you observe very justly that civil marriage has not for its direct object, nor

yet as a consequence, any religious innovation; inasmuch as it respects the established principles of the ecclesiastical authority, leaving it in the full enjoyment of its authority and jurisdiction. Thus it is well worthy to notice that civil marriage had its origin and greatest extension in essentially Catholic countries, such as France, Belgium, Sardinia, Sicily, the States of the Rhine, &c.

In cosmopolite countries such as our own, the actual chaos will end with the confusion of heterogeneous races, not founded upon the basis of family ties; and its regeneration will only commence when all its inhabitants form part of it. To combat the institution of civil marriage is to defend the institution of concubinage, converting into elements of immorality the vigorous elements of vitality with which a providential law tends to repair the extermination of our population, which destroys itself like insects, for the simple reason of never having been taught better.

If in place of those bands of gauchos who assault and displace legal governments, like the Bedouins of the pampas with troops of carts, in the exercise of their "democratic rights," we had families of English, Germans, &c., these countries would speedily realize the dream of the Utopian Republic. Civil marriage is a powerful lever, which in the progress of time must inevitably produce this result, by firmly planting and binding the foreigner to our soil and to our country by the most powerful and sacred of all earthly ties—that of family. From this must start the regeneration which will save us from the social decomposition in which our country is being so rapidly engulphed; and as to perfect the work of regeneration the innoculation of healthy elements is indispensably necessary, we have therefore commenced with the social reform of civil marriage, which has already in a very short period gained the sympathy and support of the most talented organs of the national and foreign press, inasmuch as we endeavour to give to the foreigner a fireside and a home in the midst of the Argentine family.

JOSE F. LOPEZ.

THE NORTHERN RAILWAY.

To the Editors of the *Standard*.

Gentlemen.

Having read in your impression of Tuesday a paragraph alluding to the accident that occurred on the Northern Railway on Sunday, stating that neither Mr. Crabtree nor Mr. Mortimer were visible, I beg to tell you that you have been wrongly informed, as I myself saw Mr. Mortimer on the spot at 1 p.m., and Mr. Crabtree arrived by the 2.20 train, both of them remaining there until a late hour.

As to their agreeing that the last train should be suppressed, these experienced gentlemen no doubt had their reasons for so doing. I have seen trains innumerable suppressed without the slightest notice or any apparent reason on the Western (Government model) Railway, but never have I noticed any remarks thereon in the press.

With reference to Mr. Carrega's observations in the *Tribuna* of the 12th inst., I should think that this gentleman knew more about lighterage and wholesale store business than of Government guarantees and railway management.

Yours obediently,

VIGAS.

LEAVES FROM THE QUEEN'S JOURNAL.

FINGAL'S CAVE.

"At three we anchored close before Staffa, and immediately got into the barge with Charles, the children, and the rest of our people and rowed towards the cave. As we rounded the point, the wonderful basaltic formation came in sight. The appearance it presents is most extraordinary: and when we turned the corner to go in to the renowned Fingal's Cave, the effect was splendid, like a great entrance into a vaulted hall: it looked almost awful as we entered, and the barge heaved up and down on the swell of the sea. It is very high, but no longer that 227 feet, and narrower than I expected, being only forty feet wide. The sea is immensely deep in the cave. The rocks, under water, were all colours—pink, blue, and green—which had a most beautiful and varied effect. It was the first time the British standard with a Queen of Great Britain, and her husband and children, had ever entered Fingal's Cave, and the men gave three cheers, which sounded very impressive there. We backed out, and then went on a little further to look at the other cave, not of basaltic formation, and at the point called The Herdsman. The swell was beginning to get up, and perhaps an hour later we could not have gone in."

A ROUGH SEA.

"We set off at four o'clock the yacht rolling considerably; but it was quite bearable; however, at seven they came to shut down the port-holes, expecting a heavy sea, and Lord Adolphus saw Albert, who had just got up, and said it would be very rough; upon which it was decided to put back a little way, and to go into Loch Rian; we accordingly did so, and anchored there at half-past eight;—such a dreary rainy day—one could hardly recognise what was so fine when we were last in here. Both now and the time before when we were in Loch Ryan, Lord Orkney very civilly sent us game and all sorts of things. At twelve o'clock Lord Adolphus read the short sea service. We then talked over our voyage, and what could be done;—the day was very wretched,—pouring with rain and blowing hard. It was at last decided to start again at three, and get this evening to the Mull of Galloway, which would only take us three hours, though it would probably be rough. As soon as we were out of the loch the yacht began to pitch, and the sea was dreadfully rough. I was very ill. Albert, however, stood it perfectly, and the children very tolerably. Presently we came in sight of the Mull of Galloway, a very great rock, with a lighthouse on it:—and this was our last glimpse of dear Scotland."

A THICK FOG.

"The view of Ben-na-Bhourd and indeed of all around, was very beautiful; but as we rose higher we saw mist over Loch-na-Gar. Albert left me to go after ptarmigan, and went on with Grant, while the others remained with me, taking the greatest care of me. Macdonald is a good honest man, and was indefatigable, and poor Batterbury was very anxious also. I saw ptarmigan get up, and Albert fire—he then disappeared from my sight, and I rode on. It became cold and misty when we were on Loch-na-Gar. In half an hour, or rather less, Albert rejoined me with two ptarmigan having come up by a shorter way. Here it was quite soft, easy walking, and we looked down on two small lochs called Na Nian, which were very striking, being so high up in the hills. Albert was tired, and remounted his pony; I had also been walking a little way. The ascent commenced, and with it a very thick fog, and when we had nearly reached the top of Loch-na-Gar, the mist drifted in thick clouds so as to hide everything not within a hundred yards of us. Near the peak (the fine point of the mountain which is seen so well from above Grant's house) we got off and walked, and climbed up some steep stones, to a place where we found a seat in a little nook and had some luncheon. It was just two o'clock so we had taken four hours going up. But, alas! nothing whatever to be seen; and it was cold, and wet, and cheerless. At about twenty minutes after two we set off on our way downwards, the wind blowing a hurricane, and the mist being like rain, and everything quite dark with it. Bowman (Mr. Farquharson's keeper) and Macdonald, who preceded us, looked like ghosts. We walked some way till I was quite breathless, and remounted my pony, well wrapped in plaids; and we came down by the same path that Albert haud some up, which is shorter, but steeper; the pony went delightfully; but the mist made me feel cheerless."

THE SANTA FE GOVERNOR AND THE NATIONAL COMMISSIONER.

IMPORTANT DOCUMENT.

The Government of the Province,
Santa Fé, March 7, 1868.

To H. E. the Minister of the Interior in Commission, Dr. Don Eduardo Costa,—

I have received Y. E.'s note dated to-day, and the decree that you have thought well to issue, fixing the day on which the elections are to take place.

Without entering upon a reply to the grounds by which Y. E. supports this step, it is my duty to inform Y. E. that I shall not comply with the above mentioned decree, in the part that imposes upon me this duty—Firstly, Because I do not consider Y. E. authorised to take dispositions that only appertain to the Legislature of the Province; and, secondly, Because the Province is not in the electoral conditions prescribed by the Constitution.

If it were necessary to add to the reasons that I have expressed to Y. E. in full in my former notes others equally weighty, I need only allude to Y. E.'s presence in this city to conclude therefrom the consequences that naturally follow:—

If the Province is purified, as Y. E. affirms, Y. E.'s commission would have been brought to a termination, and your presence in this city uncalled for.

God preserve your Excellency,

CAMILO ALDAO,
JUAN CARRERAS,
Oficial Mayor.

COTTON CIRCULAR.

The prospects of our markets at present hinge chiefly upon the out-turn of the American crop, and we have little to add to the remarks already made on that point. There is no doubt that in America the large estimates have been very generally abandoned, and, so far as our experience extends, the favourite figure is now 2½ millions, even among those who previously believed in 2½ millions. The present scale of receipts in the South certainly justifies the lower estimate, and unless a decided increase speedily takes place, the estimate of 2½ millions must apparently be abandoned as hopeless.

We do not, however, look for a large immediate advance under any circumstances. The arrivals of American Cotton in this port for several weeks must be at the rate of 40,000 to 50,000 bales weekly, and, as they pay a handsome profit, will be sold freely, and speculative buyers are still too weak to absorb any large quantity. The market in the main will be governed by the action of the trade, and, as they now hold a considerable stock, probably 70,000 to 80,000 bales beyond what they had at the end of last year, they have it in their power to retire from the market if they see fit.

Taking, however, a broad and general view of the market, it occupies a position of strength. The supply for year will be, beyond all reasonable doubt, a scanty one. The consumption is very large, and likely to be maintained, if prices are not sh ot up too rapidly; and it appears probable that there will recur, from time to time, periods of excitement, with active speculations directed towards higher prices.

LIST OF PASSENGERS BY THE ARNO

P. White, W. Helt, Leich, F. W. Smith, lady, two children, and servant, Eveseth and lady, R. MacNamara, Barclay, lady, three children, and servant, T. de Echebarria, F. Freverri y Esania, his family, and two sons, J. M. D. Pereira, J. R. A. Larransa, J. S. Peres, J. Aboyo, A. ó Balchelor, J. Best, J. W. Barnett, J. H. Sillitoe, A. Franye, H. M. Dew, J. U. P. New, J. P. Powell, J. M. O. Perez, L. S. Alonzo, F. A. Pinheiro, A. Ascasubi, L. Torroba, M. Gonzales.

ON 'CHANGE.

March 13, 1868.

Ounces,	$400
Sovereigns,	123½
Patacons,	25

Several sales in National Bonds at 51½ for 31s inst., and 5000, cash, at 50¾; tendency still downward.

The shareholders in the Gas Company were startled to-day by a paragraph in a morning journal to the effect that the Government claimed three million dollars currency for duties on coals, &c., imported during the last four years. We are informed, on the best authority, that this claim cannot be made good. It appears that the Custom-house wish to collect duties on the coal, that the Gas Company may in future use, and on obtaining this concession would waive any old claims that may exist.

Not much done in Produce, as barraqueros await the packet, confident of good news.

The Provincial Bank published to-day its monthly balance sheet, by which the stability of the Exchange Office can be depended on. The banking department, in the general opinion, is not in a very good position; the actual cash on hand is small, compared to cash liabilities, fully warranting a further rise in interest.

A quantity of doubloons obtained four reals premium; sovereigns are worth four to eight reals premium.

Chartered for Antwerp, by Christophel—

Dutch galliot Wendelina Jacoba, bales, 20s. and 5 per cent.

Placed on the berth for Antwerp—

Swedish barque Nicolina

Do, for Bordeaux—

French barque Fonfrede, tallow, 30f. and 10 per cent.; bales, 25f. and 10 do.

Our special reporter gives the following very important sales at the South Plaza station and deposits—

3000 ar. fine, little carretilla	64
2500 ar. good, mixed with carretilla	52
1500 ar. do. do.	53
1200 ar. from Magdalena, fine	71
1300 ar. Arroyo Chico, good, mixed	52
1200 ar. Vecino, mixed, much carretilla	48
1076 ar. Laguna de los Padres	53
1200 ar. Ensenade, fine, with bellies	73
750 ar. Arroyo Chico, good, mixed,	53
600 ar. Ensenada, little carretilla	65
350 ar. do. do.	60
700 ar. do. do.	63
2000 ar. fine	60
4 lots, from	51 to 66
2250 ar. good, mixed, little carretilla,	58
2 good lots early wool	48
1280 ar. Cañuelas, mixed	58
3700 ar. various lots, plaza, &c.	52 to 60

Some carts arrived from Matanza, consigned to Sr. Cornet. A splendid lot, and $80 offered have been refused.

PURE, SWEET,
COD LIVER OIL.
The most celebrated Chemists and Physicians of all Countries agree in recommending the Oil extracted from the livers of Cod Fish, as being the best remedy that science has yet discovered for the cure of the diseases that affect the
THROAT, LUNGS, AND CHEST.
And long continued experiments in the Public Hospitals of Paris, London, New York, and in this country have proved that pure Cod Liver Oil exercises the most beneficial effects on such diseases as
SCROFULA AND RHEUMATISM.
The great difficulty heretofore has been to procure an article reliable as to purity. The demand in Europe and America exceeding by many thousands of gallons the entire product of all the Cod Fisheries, in consequence of which unprincipled persons have flooded the markets with Land Oil, Cotton Seed Oil, Linseed Oil, &c., imposing it upon the Public as genuine Cod Liver Oil, greatly to the detriment of health. Our
PURE, SWEET, COD LIVER OIL
Is by special agreement shipped to us by our own Agents, direct from the Fisheries at Newfoundland, and delivered to us under Seal in our Store in New York. At various times, during the last five years, we have submitted our Cod Liver Oil to the
SEVEREST CHEMICAL TESTS,
Made by the first Physicians and Chemists in Cuba, Mexico, Peru, Chile, Rio de Janeiro, &c., who have unanimously declared it to be the purest and best article of the kind ever tested by them, and that it contains
IODINE IN GREATER ABUNDANCE
Than any other Oil they had seen, and this being the life-giving property in all Cod Liver Oils, it becomes evident that the sick will find in ours a more reliable remedy than in any other.
To hasten the cure of all throat, lung, and Chest Diseases, our
KEMP'S PECTORAL OF ANACAHUITA
Should be used along with the Oil, as they are prepared so as to act in complete harmony together.

CONSUMPTION,
Chest Affections, Chronic Cough, General Debility, and Loss of Nervous Power.
DR. CHURCHILL'S
HYPOPHOSPHITES.
The following are the preparations used by most eminent members of the Medical Profession, in every country in the world, for the cure of the above complaints:—
Syrup of Hypophosphite of Soda,
Syrup of Hypophosphite of Lime,
Pills of Hypophosphite of Quinine,
and in cases where ferruginous preparations are required (chlorosis, anemia, etc.,) the
Syrup of Hypophosphite of Iron,
Pills of Hypophosphite of Magnese.
These valuable medicines have saved the lives of many consumptive patients. Even in the third stage their beneficial effects have been manifested frequently. In every instance, however far advanced in the disease, the patient will find a marked improvement, both in local and general symptoms. There will be observed a remarkable increase of nervous power, a better appetite, greater regularity of the bowels, better digestion, less cough, less expectoration, less susceptibility of catching cold, less perspiration at night, etc.
Dr. Churchill's Hypophosphites are sold, with directions for use, at four francs per bottle, in France, by Swann, Pharmacien, 12, Rue Castiglione, Paris.

DILIGENCE TO AND FROM CARMEN DE ARECO.
IMPORTANT NOTICE.
The undersigned, owner of the Diligence Comercio, begs to inform his numerous Friends and Patrons that in consequence of the change in the Trains, he purposes (on and after the 9th of Nov.) leaving Carmen de Areco at 4 o'clock in the morning, in order to catch the 1st Train in Mercedes, and thus arrive at the Parque Station by 12 o'clock. The days of arrival to and departure from the Carmen de Areco will be as usual.
Ever thankful to his many kind supporters, it affords him additional pleasure to forward their interests thus by allowing them much more valuable time in Buenos Ayres, as by this arrangement almost the entire day is gained in Buenos Ayres, after a run of nearly 40 leagues.
He likewise begs to inform his Friends and the Public in general that no effort will be spared on his part to afford all possible convenience to those who may favor him.
JORGE VALLEE.
Days of departure from Buenos Ayres all even days and Carmen de Areco all odd days.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

BRISTOL'S (VEGETABLE) SUGAR-COATED

PILLS,
The Great Cure for all Diseases of the
Liver, Stomach, and Bowels,
Put up in Glass Phials, and warranted to keep in any Climate.
These Pills are prepared expressly to operate in harmony with that greatest of blood purifiers, "Bristol's Sarsaparilla," in all cases arising from depraved humors or impure blood. The most hopeless sufferers need not despair. Under the influence of these two 'great remedies,' maladies that have heretofore been considered utterly incurable disappear quickly and permanently. In the following diseases these Pills are the safest, the quickest, and the best remedy ever prepared, and should be at once resorted to:—
Dyspepsia, or Indigestion, Liver Complaints, Constipation, Headache, Dropsy, and Piles.

MORISON, THE HYGEIST'S VEGETABLE UNIVERSAL MEDICINES,
Particularized for Every Complaint.

MORISON'S PILLS. MORISON'S POWDERS.

MORISON'S OINTMENT.

1.—These invaluable medicines being composed only of a vegetable matter, or medical herbs, and warranted, on oath, as containing not one particle of mercurial or mineral substances (all of which are uncongenial to the nature of man), are found to be perfectly harmless to the most tender age, or the weakest frame, under every stage of human suffering; the most pleasant and benign in their operation that were ever offered to the world; and, at the same time, the most certain in searching out the root of any complaint, however deep, and of performing a cure.

2.—The Medicines are comprised in three different articles only; that is, in two kinds of pills, of different strength or power, designated by No. 1 and 2—the first is an efficient but most gentle and mild aparient, or opening Medicine, detaching and partially removing the bilious humours, whilst the No. 2 pills carry off those and the serous, acrid, and putrid humours of the body, to which it is incidental.

The Vegetable Powders, again, are of great assistance, and facilitate the evacuation of bad humours; they soften, are cooling, and allay the thirst, and some doses of them throughout the day are useful in making the pills have better effect and curing sooner.

BANCO DE LA PROVINCIA.
NOTICE.
For the information of the Public notice is hereby given that the False $1000 Notes, now in circulation, may be distinguished by the following imperfections:—
The Paper is Shorter and Narrower than the Genuine.
The Signatures are Badly Forged, especially Sr. Cuyar's name, which is smaller and more forced in the imitation.
Bills, Double-Stamped on the Reverse, have a Light Green Shade in the Genuine, whilst the False Copies are almost White.
The Impression on the Back of the Bill is Olive Color in the False, whilst in the Genuine it is a Clear Green.
The False Bills have got no Water-Mark.

JET BLACK INK
Writing Ink, although frequently considered to be of small importance, is really the article next to Paper, the quality of which will render the act of Writing one of pleasure or discomfort.
The Public demand an Ink which at once Writes Black, i.e., "Black Writing Ink," a "Jet Black Ink;" Messrs. Hyde & Co. of London have produced the article, and the Prize Medal of the International Exhibition, 1862, and Paris Exhibition, 1867, were awarded to Hyde & Co. for "Writing Inks of excellent quality," viz.,—
Black Writing Ink, India Writing Fluid,
Machine Copying Ink, Scarlet or Red Ink,
Marking Ink for Linen, Blue Black Writing Fluid.
These Inks, known as the British Empire Writing Inks, made by Hyde & Co., are the only Inks to which Two First Class Medals have been awarded; they are manufactured on an improved principle from genuine articles only, so as to combine in the greatest possible degree those most essential requisites, viz., Fluidity in Writing, an intense and permanent Black, with a non-tendency to thicken.
Sold, Wholesale and Retail, at
LOEDEL'S, 76 San Martin.
